

Phase 2 Blackbox Testing- Team 7

16th, November, 2018

Team members: Harika Lingareddy, Simona Virga, Sean Becker, Alexis Williams, Shengqi Wang, Pooja Tewari

Project Coordinator: Yi Sun

Defect No.	Defect Description	Defect Severity	Test Case No. (if available)
1.	Email address does not end in ".edu" but account still created	2	1-2
2.	Can recreate the same account with the exact same credentials	2	Create an account with the same credentials already used
3.	Can create an account without a number in the password	2	1-12
4.	When multiple users with the same credentials (but different passwords) have been created, a user can only log in with the first password made and not the others	1	If two users choose the same username no error is given and only the first user is able to log in
5.	All fields valid, notes field left blank gets a database error even when the spec sheet says we can leave it blank when creating a course	2	Notes field was left blank during creation of a course
6.	Start time can be the same or later than the end time for class creation	2	3-10
7.	When you put in monday and wednesday when creating a course, it shows tuesday and thursday and if you put tuesday and thursday it shows wednesday and friday, so	2	The day that is displayed for a class is different than the day that is inputted for a class.

	basically pushes it back by one day of the week (in course information)		
8.	Changing the priority of an assignment to a negative number and clicking 'Update' will successfully update that priority to a negative number	2	Input a negative priority for an assignment in assignment details, then that is updated even though there should only be a positive range for the priority
9.	When creating a new assignment (with a valid priority) the correct priority is not shown in the feed. (shows up as 0)	2	8-1
10.	In the assignments, there is a random number below the name of the assignment	3	When opening the assignment details, a random number appears below the assignments name
11.	When priority is inputted with empty/characters, creating an assignment will still be successful (priority gets set to 0)	2	8-7
12.	Notes do not show up in the assignment even if it was added during creation	2	4-8
13.	Looking at an assignment (created with a valid non-zero priority) on the feed changes the priority and number below name to 0	2	The priority of an assignment is decreased in value when its details page has been opened from the feed page
14.	Can create an activity when the start and end time are the same time	2	Create an activity with the start time and end time being the same time

15.	Can create an activity when the start and end date are on different days	2	Create an activity with the start time and end time on different days (at least 24 hrs. apart)
16.	When an activity is created, it shows up as an exam	2	17-1
17.	Notes do not show up in the exam even if it was added during creation	2	11-8
18.	Can create an exam when the start and end time are the same time	2	Create an exam with the start time and end time being the same time
19.	Can create an exam when the start and end time are on different days	2	11-2
20.	When an exam is created, it shows up as an activity	2	11-1
21.	Notes do not show up in the activity even if it was added during creation	2	17-6
22.	Gear icon in profile is not visible on certain simulators	3	The gear icon does not appear on all simulators on the profile page
23.	Toggle for turning on hw notification says notifications turned off (but only when after classes is turned off)	3	16-1
24.	Toggle for turning on after classes notification says notifications turned off (but only when after hw is turned off)	3	16-1
25.	Shows the exams and activities when it should only show activities (since you can only invite other people to activities and not exams)	2	User navigates to invitations, and when selecting an activity has the option to select exams as well

			even though that will give an error if submitted
26.	Invitations to activities only show up after user close and reopen the app.	1	The user has to close the app and then open it again in order to be able to see/accept the invitation even though they should see it right away.
27.	When accepting an activity invitation, the 'accept' button actually declines the invite (if it's red).	2	19-2
28.	When declining an activity invitation, the 'decline' button actually accepts the invite (if it's green).	2	19-3
29.	Removing a course does not remove the exams/activities associated with it from the calendar (they must be removed manually)	2	All entities associated with a class must be manually removed by the user and is not grouped with the class that it is associated with even when a user deletes the class
30.	Course days and time are cut off on some simulators	2	Certain simulators cut off information when on the course details page
31.	Notes are editable but the changes are not saved after leaving the course information page	2	Change the notes in the course details page and back out and open again; the notes have not changed
32.	The course identifier has an extra space randomly placed in it (should	3	After creating a course, navigate to

	probably be a space between department id and course id but gets placed in a random spot instead)		the course details page for that course and the course identifier will have a random space in it
